

REX – For River Expeditions

Length: 3.85/4.25m **Width:** 185/195cm **Weight:** 60/65kg **Tube Diameter:** 47/50cm **Rocker:** 78/82cm
12.5/14ftft 73/77in 130/143lb 18.5/19.5in 30/32in

REX 12.5ft: Big tubes, nice and wide for stability and lots of volume to take a serious load. This is a big 'little' 6 person raft.

REX 14ft: All the great features of the 12.5 with extra length and larger tubes. We've kept the width moderate, perfect for those technical rivers and tight lines. Making this a 'sporty' 8 person raft.

FEATURES

- I-beam floor for tracking and speed
- Lots of rocker, helping the raft to perform well in big water; less likely to get swamped keeping great manoeuvrability through rapids.
- More D-Rings, keeping the outside line where you want it
- Armour to protect high wear areas
- Adjustable position batten thwarts
- Strong, raft grade PVC
- Very stable, its width is a perfect balance for stability and manoeuvrability.
- Built to ISO 6185-1 international standard for inflatable boats.

WARRANTY – 2 year on material and workmanship. Does not cover damage through use.
